

OWN THE WHEEL WELL

TECH 550 PRO

Improving on the design of the Tech450Pro, the Tech550 is a “cabled version” of the Tech600Pro. The Tech550 features Bartec’s unique graphical user interface only with a wired OBD connection! It functions as all Bartec TPMS Tools, fast and accurate!

- ✓ High Resolution Color Display
- ✓ Graphical User Interface
- ✓ Long Lasting, Rechargeable Battery
- ✓ Improved LF Signal and UHF Detection
- ✓ Faster Tool Response and Operation
- ✓ 2 Year Warranty / 5 Year's Software

For a limited time we are extending the standard software to 5 years!

ONLY BARTEC TOOLS HAVE RITE-SYNC® TECHNOLOGY!

Wireless Functionality

Bluetooth Connectivity

Works with Classic and LE versions. Use to upload data from the tool to TPMS Desktop.

Wi-Fi Connectivity

Connect to a local Wi-Fi router and update your tool directly from Bartec Servers.

Inductive Charging

Purchase the optional wall mounted charging cradle and not only keep your tool charged [inductively] but also keep it safe and in it's place!

Aftermarket Sensor Programming

Program the industry's most popular TPMS Replacement Sensor the Rite-Sensor®. In addition it programs EZ-Sensor, Intellisens® Sens.it and REDI -Sensor®

RITE-SENSOR® Bundle Kit

WRT550PRORS30P
